Lightning High is the new release from 1000s of cats — recorded in the mountains of Nakagawa, Fukuoka and a punk club in Koenji, Tokyo. It's been a long time coming, and we're beyond excited (and kind of relieved) to finally share it. Indie punk, raw and wired, full of noisy joy and strange hope. Cassette first.

Vinyl coming soon.

The day 2 of our Nagano tour was given a little more, Matsumoto. One bond called Haradize was special for me because I saw them when I was high school student! I was happy to transcend time and space. The place owner Niimi is creating the music scene of matsumoto! Amazing!

The day 2, we went Yudenaka, Onsen town. We played at Yama Bani Bani, don't friend's French restaurant. The people who came to the show enjoyed food, drink and our music!!
