

前子の新世の個展に行ったあと、墨田区の北有美術館に行き、中倉川谷のホームシアターで近所のおじい、おじいさんと映画を観た。文化的な8月最終日を過ごした。北育の後進の育成に対する熱意を感じた。多くの所謂「HOW TO 本」をのこしている。Dave is SNOOPYの作者と通ずるものを感じたみたい。なだちと美術に触れたり、映画を観たりするが楽しい。生きるからでること。大切にしたい。

We went Sonoko's relatives solo exhibition and Sumida Hokusai Museum, then watched a movie at Hatagaya with old dudes of the neighbour. We spent a cultural last day of August. I (Sonoko) felt Hokusai's passion of educate his pupils. Dave felt a connection between Hokusai and the creator of 'PEANUTS'. It is so fun to see some art and movies with friends. These are things we can do because we are alive.

We played two studio shows

in August. Both events are organized by our favorite person/bands. We really

enjoy to play!! We love studio show. players

energy each other.

We share how to make a studio show here.

- ① Ask the studio if they can hold a live show.
- ② If possible, book the date and time. As this time, let them know that you want to hold a live show, and include the time for setup and cleanup. Also ask about any important point to note.
- ③ MAKE A FLYER!!
- ④ On the day! You have to think about the entrance. You need some exchange. And just have fun!! (complete it in time as it goes before!!)

聽 Listen? Lightning High 聽!!

This summer vacation, I went to my parents' house during "Obon" for a week. Because my grandpa's first Obon. It was a week of meeting and talking with my relatives and facing my ancestors. I also went to a local event with my nephew for the first time in over 20 years. I met my old friends too. It was over 20 years past too! My friends has grown up! And of course, me too...! It was fun - By the way, this event is called "Donbutsu". It's a thick, tightly bound bundle of straw. It's lit with a flame and spun above the head. It was impressed by how hard the kids wanted to spin it over their heads!! Of course, my nephew also did it. After finishing, he seemed to have a strange sense of elation and was very excited. Everyone did their BEST!!

Like that

Fire!!
